3 I am sure of opinion that
a City would be in a financial office
of the city of Mysore can, no means be
justified in the present state of its
finances. We will not be justified
spending any large amount for the purpose.
It is at best a wasteful luxury &
I cannot conscientiously support the
idea. As however it is decided that
this should be built, I think the cost
is. The site value in the market & the
new hospital building, is the best of the
three sites shown on the sketch. Perhaps
the question of the cost must also be taken
into consideration.

These papers relate to the question of the construction of a suitable building for the Mysore City Municipal Office. This forms an item (No 14) in the programme of special improvement works prescribed in Government Order No. 3702-9/W1 163-14-1 dated 6th November 1914.

2 The matter was discussed in Council on the 19th March 1915 and it was decided to call for estimates and plans for a building on site No 3 between Banumiah's school and the Sanskrit College, already approved by His Highness, at an approximate cost of Rs 1,30,000. The chief difficulty consists in finding funds for the building and if the Municipal Council can find half the cost, the other half may be met from the grant of 3 lakhs placed at the disposal of the Trust Board every year. But there is no objection to have plans and estimates ready and leave the question of providing funds for future consideration before actually starting the work.

3 The resolution of the Council may be approved

(1) ^x I submit herewith for favour^f approval the design sent up by the Chief Engineer for the proposed new building for the Municipal Office in Mysore City. The building is estimated to cost Rs. 160,000 approximately.

(2) If the front elevation is approved, detailed plans and estimates will be called for. Perhaps by - - doing some cheaper work inside the building, the cost may be reduced to a sum of Rs. 130,000 which is the amount which originally Government were prepared to sanction.
